

Center of Applied Technology South

cordially invites students and their parents, friends, and neighbors to attend our

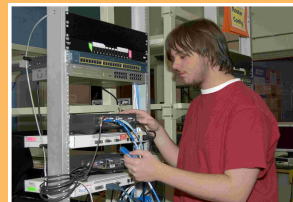

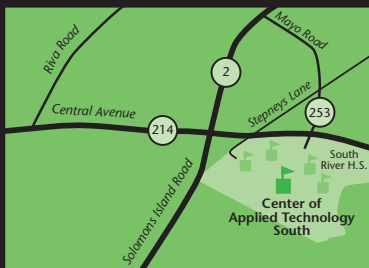

Open House

Wednesday, November 10, 2010
6:00 P.M. - 8:00 P.M.

16 Programs Offer More Career Options

- Learn skills for higher level employment
- Prepare for industry standard of excellence licensing/certifications
- Earn college credits in high school (tuition free)

This evening provides an opportunity to meet the instructors and staff at the Center of Applied Technology South. You can learn about how our programs contribute to high school graduation requirements, as well as, continuing education, and career goals. The open house will include:

- Demonstrations by students and specific details about each program,
- Explanations about the **Career Exploration** course (introductory 4 week sessions),
- Post high school graduation and related career opportunities, and
- Representatives from technical colleges, community colleges, unions, and organizations explaining the benefits of their programs.
