

# Automotive Technology

This pathway prepares students for entry into automotive technology. Students build skills in diagnosing, maintaining, and repairing vehicle systems, including electrical, chassis, powertrain, and integrated systems. The curriculum aligns with ASE Entry-Level Certification exams and offers opportunities to earn industry-recognized certifications.

## Careers

- ✓ Auto Service Technician
- ✓ Service writer/estimator
- ✓ Shop Manager

## Industry Recognized Certifications

- 📄 Automotive Service Excellence (ASE) Entry-Level Certifications
- 📄 Safety and Pollution Prevention Certification (S/P2)
- 📄 Environmental Protection Agency Refrigerant Recovery & Recycling Certification (CFC)

## Career Pathway Sequence (3 Credits)

### Course 1

V3201 | Automotive Basics  
(1 credit)

### Course 2

V3202 | Automotive  
Technology 1: Maintenance  
& Light Repair  
(1 credit)

### Course 3

V3203 | Automotive  
Technology 2: Automotive Service  
(1 credit)
