

# Networking

This pathway focuses on careers and educational pathways related to the design and implementation of computer and information networks, including LANs, WANs, intranets, extranets, and other data communication systems. Students learn to analyze and address data processing challenges involved in developing and improving network systems.

## Careers

- ✓ Network Designers
- ✓ Computer System Administrators
- ✓ Network Systems Administrators

## Industry Recognized Certifications

- 📄 Cisco Certified Support Technician (CCST)
- 📄 Cisco Certified Networking Associate (CCNA)

## Career Pathway Sequence (3 Credits)

### Course 1

V1371 | Honors Networking 1  
(1 credit)

### Course 2

V1372 | Honors Networking 2  
(1 credit)

### Course 3

V1373 | Honors Networking 3  
(1 credit)
